

VITAL-PACK

CATALOGUE

Packaging 2023

Vital-Pack is a leading supplier of takeaway and its complement items for food&drink packaging sector. We export to many countries more than a 100 different products.

In addition to being a traditional supplier, we chose to be a company that produces customized solutions for business partners rather than ordinary packaging. The maximum level of transparency in the services we provide and the order processes of the products we supply has enabled us to gain the trust of our customers in a short time.

We, as Vital-Pack, rather than moving quickly to the order stage, our primary goal has been to decide the right product for our customer. And in this direction, providing fast, quality and timely products and services are among our priorities.

It is our goal to create more intimate and pleasant environment with our customers, rather than establishing a seller and buyer relationship, to achieve more effective results.

We owe this success we have achieved so far to our customers by creating a flexible working environment by considering these services and products as our own business. We have adopted the principle of lifting the boundaries.

We Navigate Your Future Packaging...

PROFESSIONAL FRYING OIL

Usage Recommendation

Orkide FRY Frying Oil is a product specially developed for professional kitchens. It can be used in pastries and desserts such as deep-fried rolls filled with cheese/meat, savory pastry pockets, deep fried water thin dough with raw minced meat filling, doughnut, as well as fries like potato, croquet and seafood. It allows to prepare light, golden and crispy fries.

Storage Conditions

Use by opening the plastic cap without puncturing the packaging, close the cap after use. Keep out of the sun, store in a cool place and make sure water doesn't get in the canister.

Net weight	18 lt
Boxes in 1 pallet	44
Shelf life	1 year

Barkod No.
8691313011061

Benefits

Orkide FRY Frying Oil is resistant to high temperature. It does not burn, foam, or cause smoke or odor. It can be used several times without losing its flavor and texture. This aspect provides savings for professional kitchens. It does not contain trans fat.
